Comment from Director Engineering Services

I have analysed the tenders which were received and opened today.

RPQ Spray Seal and Austek Spray Seal have stated they can do the work in the New Year. RPQ Spray Seal state the tender is valid until 2 March 2020. Colas is based on doing the work while they are here but they are not the least expensive.

We will now not be able to seal before Christmas.

All are reputable contractors and all do not have any nonstandard conditions.

I recommend awarding the work to RPQ Spray Seal.

FINANCIAL:

Council has made provision for this project in the 2019/20 budget and the works are partly funded under the Transport Infrastructure Development Scheme (TIDS).
