1 OBJECTIVE

The objective of this policy is to comply with the requirements of Chapter 4, Part 1 and Part 2 of the *Local Government Act 2009* and Section 169 (2) (c) and Section 193 of the *Local Government Regulation 2012* by setting out:

- (a) the principles which Council intends to apply for the 2023/24 financial year for:
 - levying rates and charges;
 - granting concessions for rates and charges;
 - · recovering overdue rates and charges;
 - · cost-recovery methods; and
- (b) the purpose of concessions for rates and charges; and
- (c) the extent to which physical and social infrastructure costs for a new development are to be funded by charges for the development.

2 SCOPE

This policy applies to all rates and charges levied by Council. It applies to the making, levying, recovery and concessions for rates and utility charges and the setting of regulatory and commercial fees and charges.

3 STATEMENT

3.1 Introduction

In accordance with the provisions of the *Local Government Act 2009* and *Local Government Regulation 2012*, Council is required to prepare and adopt by resolution a Revenue Policy.

Council's Revenue Policy is based on the following principles:

- Transparency by communicating the Council's charging processes and each ratepayer's responsibility under the rating system; and
- Efficiency by having a rating regime that is cost effective to administer; and
- Fairness and equity by ensuring the consistent application of lawful rating and charging principles, and taking into account all relevant considerations: and
- Flexibility to take account of changes in the local economy, extraordinary circumstances and impacts that different industries may have on Council infrastructure and service delivery; and
- Sustainability to support the strategic plans for the delivery of infrastructure and services identified in Council's short, medium and long term planning.

Council will apply these principles when:

- Making rates and charges;
- Levying rates and charges;
- Recovering rates and charges;
- Granting and administering rating concessions;
- Charging for Council services and facilities;
- Funding Council infrastructure; and

3.2 Making and Levying Rates and Charges

3.2.1 General Rates

General Rates are set each financial year to assist Council in raising sufficient revenue to provide services and facilities to the community. Council recognises that different categories of land use will generate different needs and requirements for Council services and facilities. Council also recognises that it will incur a different level of expenditure to provide the necessary services and facilities and has therefore adopted a system of differential general rating to meet its needs.

3.2.2 Differential General Rates

Council considers that the use of differential general rates allows the following factors to be taken into account in determining how general rate revenue is to be raised, which would not be possible if only one general rate were adopted:

- (a) the relative effects of various land uses on the requirements for, level of, and the cost of providing Council facilities and services'
- (b) movements and variations in the Unimproved Capital Value (UCV) both within categories and between categories of land use which affect the level of rates and issues such as 'fairness and equity';
- (c) location and access to services; and
- (d) the amount of the Unimproved Capital Value (UCV) and the rate payable.

Property valuations are determined by the Department of Resources and can fluctuate from year to year. In setting rates, Council determines how much income is required to be generated from rates balanced against the principles outlined in section 3.1.

Council can use averaging and capping options if property valuations fluctuate severely.

To ensure that owners of land across all differential categories contribute equitably to the cost of common services, Council will apply a minimum rate to each differential rating category.

3.2.3 Utility Charges – Water, Sewerage and Waste Management Services

In general, Council will be guided by the principle of user pays in the making of charges that relate to the provision of water, sewerage and waste management services.

Wherever possible, those receiving the benefits of a utility service will pay for the service received through the relevant utility charges. Council will annually review its utility charges and other fees for service to ensure that revenues are meeting intended program goals and are keeping pace with the cost of providing the service.

3.2.4 Special and Separate Rates and Charges

Council may consider levying special and separate rates and charges when appropriate, to recover the costs associated with a particular service, project or facility that provides direct or additional benefit to the ratepayer or class of ratepayer.

3.3 GRANTING OF REBATES AND CONCESSIONS

3.3.1 Guiding Principles

In accordance with Chapter 4 Part 10 of the *Local Government Regulation 2012* Council may grant a concession for rates and charges. In exercising these concession powers Council will be guided by the principles of equity and transparency by:

- Applying the same treatment to ratepayers with similar circumstances;
- Making clear the requirements necessary to receive concessions;
- Communicating the concessions available and raising awareness with ratepayers and groups of ratepayers that may qualify for concessions; and
- Council may give consideration to granting a class concession in the event the State Government declares all or part of the local government area a natural disaster area.

3.3.2 Purpose of Concessions

In accordance with Section 120 (1) of the *Local Government Regulation 2012*, Council may grant a concession in 2022/23 for the owner of categories, or in some circumstances occupier categories, and properties used for the listed purposes.

(a) Pensioner Concession

Eligible pensioners as defined in Schedule 8 of the *Local Government Regulation* 2012 may be granted a concession on general rates and utility charges. The purpose of the concession for pensioners is to assist pensioner land owners to remain in their own home by reducing the financial impact of rates and charges.

(b) Hardship Concession

Council may grant a concession where it can be demonstrated that the payment of the rates and charges will cause the owner hardship (see section 120 (1) (c) of the *Local Government Regulation 2012*).

(c) Waste Management Concessions

Council may grant a concession on the basis that requiring the owner to pay the waste management levy, in circumstances where none of Council's waste transfer or landfill facilities are utilised by the land in question, will cause the owner hardship (see section 120(1)(c) of the *Local Government Regulation 2012*).

(d) Not for Profit Community Organisation Concession

In accordance with Section 120 (1) (b) of the *Local Government Regulation 2012*, a concession may be granted if Council is satisfied that the land is used for community purposes and is operated on a not-for-profit basis.

The purpose of these concessions is to encourage and support not-for-profit and charitable organisations where the land use is considered to contribute to the health and well-being of the community and the social enrichment of residents.

(e) Other Concessions

Council will receive and consider applications from ratepayers where Council is satisfied that the application meets the eligibility criteria as provided for in section 120 (1) of the *Local Government Regulation 2012*. Applications for concessions will be considered by Council on their individual merits having regard to sections 119 to 126 of the *Local Government Regulation 2012*.

3.4 RECOVERY OF OUTSTANDING RATES AND CHARGES

Council requires payment of rates and charges within the specified period and it is Council policy to pursue the collection of outstanding rates and charges diligently, but with due concern for the financial hardship faced by some members of the community.

Council will exercise its rate recovery powers pursuant to the provisions of Chapter 4 Part 12 of the *Local Government Regulation 2012* in order to reduce the overall rate burden on ratepayers, and will be guided by the principles of:

- Fairness and equity by treating all ratepayers in similar circumstances in the same manner and by having regard to their capacity to pay;
- Transparency by making clear the obligations of ratepayers and the processes used by Council in assisting them to meet their financial obligations; and
- Flexibility by providing ratepayers with a number of options to meet their rate obligations; and
- Efficiency by making the process used to recover outstanding rates and charges clear, simple to administer and cost effective.

3.5 CHARGES FOR COUNCIL SERVICES AND FACILITIES

There are broadly two types of fees and charges:

- 1. Cost Recovery (regulatory) fees and charges; and
- 2. Other (commercial) fees and charges.

3.5.1 Cost Recovery (Regulatory) Fees and Charges

(Section 97 of the Local Government Regulation 2012)

These are fees under a local law or a resolution, which involve:

- (a) an application for the issue or renewal of a license, permit, registration or other approval under a Local Government Act (an application fee); or
- (b) recording a change of ownership of land; or
- (c) giving information kept under a Local Government Act.

A cost recovery fee must not be more than the cost to Council of taking the action for which the fee is charges.

Whilst Council notes that, pursuant to Section 97 of the *Local Government Act 2009*, it may introduce a tax component into a regulatory fee in order to achieve a social or other objective, it is not Council's intention to encompass a tax in any regulatory fee.

Accordingly, Council will not recover more than the cost of administering the regulatory regime.

3.5.2 Other Commercial Fees and Charges

Council will apply, as a minimum and as far as practicable, the principle of full cost recovery (including overheads) in setting charges for services and facilities. Council may consider granting concessions (fee waivers) for community or non-profit organisations.

Council may give consideration to charging at less than the full cost of the service or facility when it considers it appropriate to do so in order to achieve social, economic or environmental goals.

Where the service or facility supplied is of a commercial nature, Council may give consideration to including a return on investment element in the charge. Such consideration will be made on a case by case basis.

3.6 FUNDING OF NEW DEVELOPMENT

Council requires developers to pay reasonable and relevant contributions towards the cost of infrastructure required to support the development. Specific charges are detailed in the policies and other material supporting Council's town planning scheme.

These policies are based on normal anticipated growth rates. Where a new development is of sufficient magnitude to accelerate the growth rate of a specific community within the Shire, it may be necessary to bring forward social infrastructure projects. Where this occurs, Council expects developers to meet sufficient costs so that the availability of facilities are not adversely affected and so that existing ratepayers are not burdened with the cost of providing the additional infrastructure.

Council may depart from applying this principle if it is determined by Council that it is in the community interest to do so.

Council's Revenue Statement for 2024/25 inclusive of Appendix 1, has been prepared in accordance with section 172 of the Local Government Regulation 2012, to outline:

- the measures Council has adopted for raising revenue;
- the rates and charges to be levied in the financial year;
- the concessions for rates and charges to be granted;
- the limit on increases to rates and charges;
- the differential general rating categories which will be levied;
- a description of each rating category;
- special rates and charges that will be applied;

This document should be read in conjunction with Council's Revenue Policy. Council will apply the principles set out in the Revenue Policy when making and levying rates and charges, granting concessions and recovering unpaid amounts.

It is not intended that this Revenue Statement reproduce all related policies. Related policies will be referred to where applicable and will take precedence if clarification is required.

BACKGROUND

Council is required to raise an appropriate amount of revenue to maintain assets and provide services to the Quilpie Shire as a whole. In deciding how revenue is raised Council has had regard to the principles set out in Council's Revenue Policy.

SCOPE

This Revenue Statement, adopted as part of the Budget at the Special Meeting of Council held on 16 July 2024, applies to the financial year from 1 July 2024 to 30 June 2025.

LEGISLATIVE CONTEXT

Section 170 of the Local Government Regulation 2012 provides:

- 1) A local government must adopt its budget for a financial year.
 - a) after 31 May in the year before the financial year; but
 - b) before
 - i) 1 August in the financial year; or
 - ii) a later day decided by the Minister.
- 2) If the budget does not comply with section 169 when it is adopted, the adoption of the budget is of no effect.

- 4) If the budget does not comply with the following when it is amended, the amendment of the budget is of no effect
 - a) section 169;

Section 172 of the Local Government Regulation 2012 provides:

- 1) The revenue statement for a local government must state
 - a) if the local government levies differential general rates
 - i) the rating categories for rateable land in the local government area; and
 - ii) a description of each rating category; and

 - i) the rates and charges to be levied in the financial year; and
 - ii) the concessions for rates and charges to be granted in the financial year;
 - b) whether the local government has made a resolution limiting an increase of rates and charges.

5 REVENUE RAISING MEASURES ADOPTED IN THE BUDGET CONCERNING THE MAKING AND LEVYING OF RATES AND CHARGES

5.1 OVERVIEW

Council identifies certain services in respect of which the consumer of the service will be expected to meet all or the greater part of the total cost of providing the specific service. In such cases, the cost of providing the service will include the cost of acquiring the commodity or service, the cost of providing the infrastructure or organisation to process and/or deliver the commodity or service and any overheads associated with these cost components.

However, it is acknowledged that individual consumers of a commodity or service cannot always be separately identified. For this reason there is a need for specific user charges to be supplemented by other general revenue sources.

Page 2 of 22

The relevant components of Council's Revenue Statement are therefore based on a combination of specific user charges, separate charges, a special charge and differential general rates (made and levied on the value of land) to provide the most equitable and rational basis for raising revenue.

In summary, rates and charges are determined after due consideration of the foregoing and the following:

- i) Council's legislative obligations;
- ii) the needs and expectations of the general community;
- iii) the expected cost of providing services; and
- iv) equity namely, ensuring the fair and consistent application of lawful rating and charging principles, without bias, taking account of all relevant considerations, and disregarding irrelevancies such as the perceived personal wealth of individual ratepayers or ratepayer classes.

5.2 MAKING AND LEVYING OF GENERAL RATES RATIONALE

General rates are for services, facilities and activities that are supplied or undertaken for the benefit of the community in general (rather than a particular person). Council is required to raise an appropriate amount of revenue to maintain assets and provide services to the shire as a whole.

Under State legislation, land valuation is used as the basis for levying general rates in Queensland. The general rate could be determined by dividing the income needed from general rates by the rateable valuation of lands, however that would be inequitable because of the considerable diversity in the Quilpie shire in terms of land use and location, land values, access to, and actual and potential demands for, services and facilities.

To provide a more equitable and reasonable basis for its revenue raising, Council has adopted a rating system that takes into account a combination of differential general rates, specific user charges and special rates.

In summary, rates and charges are determined after consideration of:

- i) Council's legislative obligations;
- ii) The needs and expectations of the general community;
- iii) The expected cost of providing services; and
- iv) Equity that is, ensuring the fair and consistent approach of lawful rating and charging principles, taking account of all relevant considerations, and disregarding irrelevancies such as the perceived personal wealth of individual ratepayers or ratepayer classes.

DIFFERENTIAL GENERAL RATING CATEGORIES

The differential rating categories have been determined having regard to:

- Land use as determined by Council and the Department of Resources "Land Use Codes";
- Carbon Credit Units:
- Location;
- Availability of services;
- Consumption of and demand for services; and

Whether any attribute of the land (including the status of the land under the Planning Scheme) gives rise to, or is likely to give rise to, increased costs for the council, whether at that land or elsewhere.

Pursuant to Chapter 4 of the Local Government Regulation 2012, Council has decided that:

- a) There will be 15 categories of rateable land for 2024/25 as stated and described in *Table 1*;
- b) The description of each of the rating categories of rateable land in the local government area is set out in Table 1:
- c) The differential general rate, limitation on increase and minimum general rate to be levied for each of the 15 differential general rating categories are detailed in Table 2.

Pursuant to sections 81(4) and 81(5) of the Local Government Regulation 2012, Council had delegated to the Chief Executive Officer the power to identify the rating category to which each parcel of rateable land belongs.

COST RECOVERY FEES AND COMMERCIAL CHARGES

It is Council's intention that each service, facility or activity provided are on a full cost recovery basis however consideration may, where appropriate, be given to the broad community impact that certain fees and charges may have. Council may decide to provide services, facilities or activities that are not fully cost recoverable but are deemed to be provided as a community service obligation by cross subsiding.

In setting cost recovery and other fees and charges, Council will apply the following criteria:

- 1. Cost recovery (regulatory) services the fee will be set at no more than the full cost of providing the service or taking the action for which the fee is charge. Council may wish to subsidise the fee from other sources (i.e. general rate revenue) where Council considers that it would not be reasonable to charge the full cost; and
- 2. Charges for commercial services will be set to recover the full cost of providing the service.

Cost-recovery fees and commercial charges may be adopted by Council as required during the financial year.

BUSINESS ACTIVITY FEES

Council has the power to conduct business activities and make business activity fees for services and facilities it provides on this basis. Business activity fees are made where Council provides a service and the other party to the transaction can choose whether or not to avail itself of the service.

Business activity fees are a class of charge, which are purely commercial in application and are subject to the Commonwealth's Goods and Services Tax.

The Overall Plan for the Wild Dog Control Special Rate is as follows:

1. Service, facility or activity to which the Overall Plan applies

2. Rateable land to which the special rate applies

The rateable land to which the special rate applies is all rateable land categorised as:

- Category 11 Rural Land ≥ 100Ha; and
- Category 12 Rural Land Carbon Credits

.

3. Estimated cost of carrying out the overall plan

The estimated cost of carrying out the activity the subject of the overall plan is \$160,000. The Wild Dog Control Special Rate will levy an estimated \$104,500 towards the total estimated cost of carrying out the activity.

4. Estimated time for carrying out the overall plan

The estimated time for carrying out the overall plan is 1 year ending on 30 June 2025.

The rateable land or its occupier specially benefits from the service, facility or activity funded by the special rate because it will provide management of wild dogs, so as to improve the agricultural activities on the land which will increase productivity for landholders.

It is anticipated that a levy will be made in future years as the service, facility and activities are likely to be on-going programs.
